

DSHA will be switching to a newer version of Mitas!

This is the day we have all been waiting for!

DSHA has been working extremely hard for the past few months and after a lot of planning, building and designing, we're finally ready to release a new version of Mitas.

We hope you're as excited about it as we are.

Starting June 28, 2021, you will now use the new version of Mitas for all day to day operations. We will provide a link to the new version closer to the launch date. As for now, please see the training for the new Mitas [here](#).
